Gary:

Rafael is in the best position at EPA to answer this question. I am attaching the RI/FS Order for Falcon which describes the Site in a map at Attachment B. The facility is called the Falcon Refinery Site and Dock Facility. The operation of the facility required the use of the docking area. This map is one starting point.

Finally, what did Lazarus purchase when it bought the Falcon site? Lazarus is really in the best position to know the extent of the facility that it purchased.

Let me know if there is anything else that I can do.

Rafael/Gloria:

Lazarus is asking me if the dock are that Superior Crude is using that belongs to the facility is part of the site. They want to get a loan against it to possibly get me my performance bond and then get you the money I have in house. I don't remember it being or us considering it part of the site but I need your feedback.
